REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant invention has been deemed to be an unobvious improvement over U.S. Patent 6951165 to Kuhn et al. Kuhn et al discloses a high pressure fuel pump having at least one pump element including a pump piston driven by a drive shaft against a restoring spring, a sleeve-like tappet, a support element, and a spring plate (Fig. 8). The unobvious improvements include the restoring spring engaging the pump piston and the tappet via a spring plate that is elastically deformable in the direction of the piston motion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7011012 discloses a further high pressure pump.

CONCLUSION
